### What is the A1C test?

The A1C test is a blood test that provides information about a person's average levels of blood glucose, also called blood sugar, over the past 3 months. The A1C test is sometimes called the hemoglobin A1c, HbA1c, or glycohemoglobin test. The A1C test is the primary test used for diabetes management and diabetes research.

#### DIABETES

29.1  
MILLION

29.1 million  
people have  
diabetes

That's about 1 out of every 11 people
